Internship Offer Letter

Dear Yunus Sagolwad ,

We are pleased to offer you an internship position with Data Innovation Technologies Private Limited as an Intern - Software Development. We believe that your academic background and passion for learning new technologies will make you a valuable part of our team.

The Internship will commence on 18th Nov 2025 and will conclude on 18th Feb 2026. During this period, you will be working closely with our technical team on live industry-level projects involving modern technologies such as Java, Spring Boot, React, SQL, DevOps, and Cloud Platforms.

You are expected to maintain professionalism, discipline, and adherence to company policies throughout your internship.

Roles & Responsibilities:
Participate in project development and assigned tasks
Attend daily meetings and training sessions
Contribute to coding, documentation, and testing
Complete daily and weekly assigned work
Collaborate with fellow team members and follow engineering standards

Your performance will be evaluated based on:
Quality of assigned work and timely completion
Technical learning progress and project contribution
Attendance, discipline, and professionalism
Ability to work in a team environment

Upon successful completion of the internship, you will receive an Internship Completion Certificate, subject to performance evaluation and fulfilment of assigned tasks.

We look forward to your positive contribution and growth with us.

Sincerely,
Asiya Khan

INTERNSHIP COMPLETION CERTIFICATE

THIS IS TO CERTIFY THAT **YUNUS BAGEWADI** HAS SUCCESSFULLY COMPLETED THE INTERNSHIP WITH **DATAINNOVATION TECHNOLOGIES PRIVATE LIMITED** IN THE POSITION OF INTERN – SOFTWARE DEVELOPMENT.

THE INTERNSHIP WAS CARRIED OUT FROM **18TH NOVEMBER 2025 TO 18TH FEBRUARY 2026.**

DURING THIS PERIOD, THE INTERN WORKED CLOSELY WITH THE TECHNICAL TEAM ON LIVE **INDUSTRY-LEVEL PROJECTS** INVOLVING
MODERN TECHNOLOGIES INCLUDING **JAVA, SPRING BOOT, REACT, SQL, DEVOPS, AND CLOUD PLATFORMS**. THE INTERNSHIP INVOLVED ACTIVE PARTICIPATION IN SOFTWARE DEVELOPMENT PROCESSES, CODING, DOCUMENTATION, TESTING, AND
COLLABORATION IN DAILY MEETINGS AND TRAINING SESSIONS.

THE PERFORMANCE WAS EVALUATED BASED ON:
-QUALITY AND TIMELY COMPLETION OF ASSIGNED TASKS
-TECHNICAL LEARNING PROGRESS AND PROJECT CONTRIBUTION
-ATTENDANCE, DISCIPLINE, AND PROFESSIONALISM
-ABILITY TO WORK EFFECTIVELY WITHIN A TEAM ENVIRONMENT

THROUGHOUT THE TENURE, THE INTERN DEMONSTRATED DEDICATION, STRONG TECHNICAL APTITUDE, AND A PROFESSIONAL APPROACH TO ASSIGNED RESPONSIBILITIES.

WE APPRECIATE THE CONTRIBUTION MADE DURING THE INTERNSHIP AND WISH SUCCESS IN ALL FUTURE PROFESSIONAL ENDEAVORS.

SINCERELY,
ASIYA

About DataInn Technologies:

DataInn Technologies is an AI-focused IT consulting firm that helps organizations design, build, and scale production-ready AI solutions. The company specializes in AI agents, data platforms, and decision intelligence, enabling businesses to move from experimentation to real-world impact.

Industries Served:

- Finance & FinTech
- Healthcare & Life Sciences
- Legal & Professional Services
- Retail & E-commerce
- Manufacturing & Enterprise Operations

Core Expertise:

- Artificial Intelligence & Machine Learning
- Large Language Models (LLMs) & AI Agents
- Data Engineering & Analytics
- Cloud & Enterprise AI Architecture

Specialization in : Advance Java

Mode: Remote

Internship Period: 18-November-2025 To 18-February-2025

Technologies Actively Working On:

- Java
- JDBC
- PostgreSQL
- JPA
- SDLC Documentation
- Git/GitHub
- JSON APIs

Tasks Assigned:

MAJOR TASK 1:

- Understanding how to **create a simple database, tables, insert data, and write basic SQL queries.**
- Learn how to connect Java to PostgreSQL and perform very simple **CRUD operations.**
- GitHub Setup & Push: **Version control** and code publishing.

- Understanding and implementing **Object Oriented Programming** concepts.
- Creating modules like BankAccount, StudentMGMT, EmployeeMGMT, etc.
- Implementing **JDBC CRUD operations** via OOPs concepts.

MAJOR TASK 2:

- **Implementing Collection built-in data structures such as:**
  - ArrayList<>
  - HashSet<>
  - TreeSet<>
  - LinkedList<>
  - Map<>
  - HashMap<>
  - TreeMap<>
  - LinkedHashMap<>

- **And implementing problems based on above Collections, such as:**
  - Browser Tab History Behavior
  - Exam Submission Behavior

- Understanding which Collection data structure is efficient for a given scenario / problem.

- **Implementing Interation Classes and Methods, which included concepts like:**
  - Iterator<>
  - ListIterator<>
  - ForEach Iterator

MAJOR TASK 3:

- Built a basic **REST API** using **Spring Boot** to perform **CRUD operations** on a database table.
- Implemented Entity, **JPA** Repository, Service Layer, and REST Controller using standard **Spring Boot annotations.**
- Configured the database and tested **API endpoints (POST, GET, PUT, DELETE)** using **Postman**.
- Used **custom JPA queries** to fetch data from the database.
- Implemented **pagination** and sorting using the **Pageable interface**.
- Integrated **Liquibase** for database **schema versioning** and smooth migration during deployments.

Project Details:

♣ **ResumeAgent** is an **AI-powered** platform that converts a single master resume into job-specific ATS-optimized resumes.

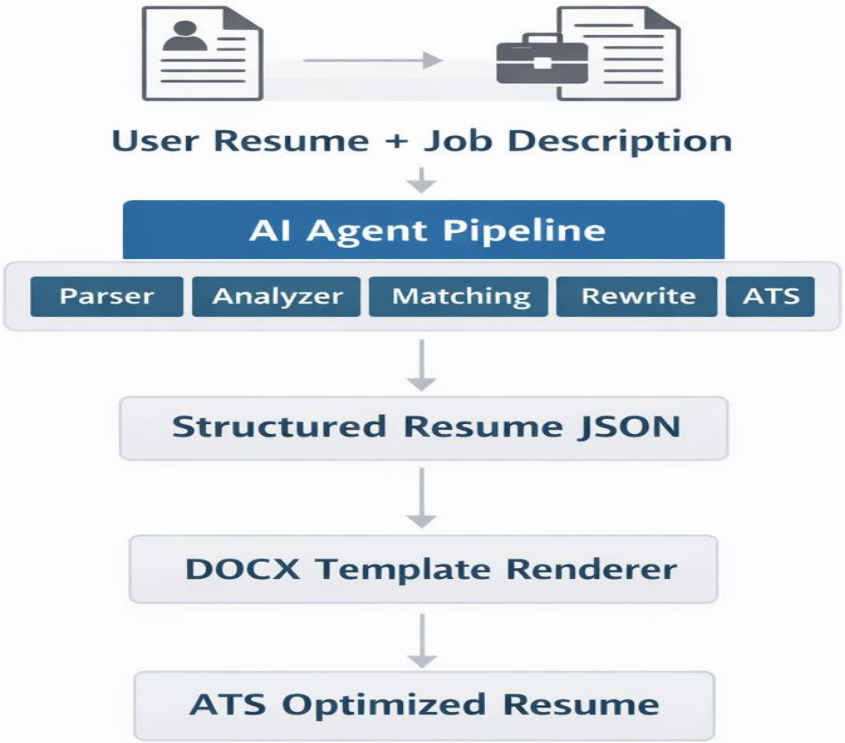
♣ Key Features

- AI analyzes job description + resume
- Automatically matches skills and experience
- Generates tailored resumes for each job
- Produces professional, editable DOCX files
- Ensures ATS compatibility and keyword alignment

♣ Impact

- Saves time for job seekers
- Improves ATS pass rate
- Maintains factual accuracy without hallucinated content

♣ AI-driven resume optimization flowchart



♣ ResumeAgent Technology stack:
